(615) 604-1955

Scott Coner has lived on a quiet farm on the same country road in rural Indiana for his entire life. “Most of my family lives close to each other,” says Coner. “My farm allows me the solitude I need to think and to create. I have written many songs sitting on my back porch looking across the fields. The process of writing never stops; it is continual. All around my house, you can find scraps of paper, lyrics on envelopes, and whatever else was close by when I had an idea for a song. My passion, my life purpose has always been singing and creating music.”

However, Scott and his wife Cyndi choose family first! Over the past many years they dedicated their lives to raising their now two grown daughters who are also artistically talented.

Over the past couple of years, Scott began taking real steps in the direction of a full-time music career. These steps quickly and surprisingly lead him into Nashville recording studios where he recorded a single of one of his original songs with the legendary Queen of Country, Tanya Tucker. Scott’s musical journey has also given him the opportunity to record with other legends such as Charlie Daniels, T. Graham Brown, and Carol Chase from Lynyrd Skynyrd. In addition, Scott has been writing and working with some of Nashville’s top number one hit songwriters while developing his touring show. Scott’s voice and music have been heard and well received by Nashville’s decision-making publishers and industry professionals.

Scott is ready to get off of that country road in Indiana and bring his beautiful voice and his show “Build a Legacy” to your venue or event!

The “Build a Legacy” show is a powerful multi-media program that features classic songs that appeal to a wide range of audiences. Scott says, “I created this professional, visual experience in an effort to allow the listener to feel the songs deeper and remind them of how important they are to their families and communities. However, my primary goal is to give the audience a fun and memorable evening and those who are booking the shows an easy and affordable plug-in quality program.”

Mostly, Scott wants to encourage each person to know that it is never too late to live the life you are meant to live and he looks forward to meeting each of you!
